

Celebrating Independence Day in America...

Promoting "Designed in America," Helix Design celebrates the innovation and creativity that is alive and well in our country. While many rightfully laude products that are "Made in America," we suggest focusing not just on where a product is assembled, but also celebrate the thinking that created the product itself. "Designed in America" likewise keeps jobs at home and promotes the United States of America as the world leader in ingenuity.

The "Designed in America" flag was created by Helix Design to represent design creativity through the American flag. Made up of product design ideations, Helix is artistically promoting the concept that creativity, innovation, ingenuity and design is embodied in America's product development excellence and expertise.

From all of us at Helix Design, we wish you joy and happiness as you celebrate America's birthday.
Happy Independence Day!

"In the truest sense, freedom cannot be bestowed; it must be achieved."
-Franklin D. Roosevelt

If you'd like to discuss how Helix's creative product design services can differentiate, revitalize and create excellence for your company's products, please contact the Helix Design sales team at 603.644.1408 for more information.
